Mobile device

You will need a mobile device (smartphone or tablet) on which you will download the ProctorExam app. Instructions for downloading the app will be provided during the system check process or you can do this prior to your system check by accessing the Google Play Store for Android devices and the App Store for iOS (Apple) devices and searching for “ProctorExam”. Specifications are:

Operating System	<ul style="list-style-type: none">▪ Android 8 or higher▪ iOS (Apple) 15.8 or higher
------------------	--

Ensure you can connect to Wi-Fi, so you do not use up your data.

Ensure your mobile device can be plugged in for the duration of your exam.

Notes:

Attempting to use a laptop or device that is intended for work purposes may have restricted access and admin rights installed. This may cause issues when trying to access the ProctorExam platform and therefore it is recommended to use a personal laptop/desktop.

The test software does not allow computers running virtual machines. If you are running a virtual machine, you will be asked to close your virtual machine and boot into your operating system to take your exam.

The test software does not support development previews, beta builds, or release candidates of any operating system unless specified.
